Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.

Financial Commentary

The cash flow for the quarter does not substantially vary from the estimated cash flow provided in October 2016. During the first two quarters, the company incurred major Research & Development costs to finalise the core software platform that houses the algorithm and other analytics. For the remainder of the year, Research & Development expenditure will be substantially less, and will be incurred on progressing the hardware component of overnight monitoring.

Leon L'Huillier
Executive Chairman
